

How to Make Airplanes Fly: The Guide to Becoming a Certificated Jet Mechanic

By Rick John Wening

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This is a guide for everyone, male and female, who has ever thought of pursuing a career in aviation. A career as a commercial, corporate, or private aircraft certificated Airframe and Powerplant (AP) technician. This book takes the confusion and misinformation that often accompanies the subject and clearly explains what the Airframe and Powerplant certificates are, who can have them, who needs them, and what you have to do to get them. It also explains what AP s do, where they work and how much you can make doing it. For example, certificated airline mechanics routinely make over \$100,000 a year. Certificated aircraft mechanics (AP s) are the second highest paid group in the airlines next to the pilots. It is written from the point of view of someone with over thirty years in the aircraft maintenance business who loves it and wants as many people as possible to know about it. Also included are the names, addresses and direct contact information for over 150 schools, colleges and universities that offer an Airframe and Powerplant program. There is...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
