

The Fixation of Atmospheric Nitrogen: A Thesis (Classic Reprint) (Paperback)

By Armada T R Weathers

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Fixation of Atmospheric Nitrogen: A Thesis The two chief sources of the worlds supply of nitrogen are the Chilean nitre fields and the ammonia compounds from the Monds process in the destructive distillation of coal. The latter source may increase rapidly from its present production of tons per year because of a larger demand for coke due to the increasing smoke prevention laws. the Chilean export in 1830 was about tons. in 1918 it reached the maximum of tons because of the greater needs because of the war. Geologists have figured that the nitre fields will be exhausted in a decade. the chemical industries require large quantities in the manufacture of nitric acid and ammonia. a much greater quantity is used as fertilizer. most Plants are unable to absorb the free inert molecular nitrogen of the atmosphere but can utalize it from such compounds as nitrates and ammonia. With the increased worlds population and there. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
