A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Trafford Publishing, Canada, 2005. Paperback. Book Condition: New. 269 x 206 mm. Language: English . Brand New Book ***** Print on Demand *****.Your Future in a Cup is a how to foresee the future using the ancient Middle Eastern, Turkish, or Greek custom of divining with coffee grounds. The author leads us on a step-by-step journey through the 10 chapters of Section I - from preparing the coffee to interpreting the images. Interspersed throughout the text are fascinating examples of readings from the author s files. Many startling, sometimes beautiful, untouched photographs of images formed in cup and saucer grounds illustrate the principles being taught. The second half of the book consists of an extensive list of symbols and their meanings. If, for example, the image of a particular animal is seen in the grounds, its interpretation would be found in Section II, listed alphabetically under Animals. The symbols interpretations are culled from many cultures, historic and contemporary, and from mythology, folklore, literature, religion, and the author s personal experience. Here is the authoritative work on the subject, written by a metaphysician, teacher, author and 35-year practitioner of the mystical arts and sciences.
