WHEN LIFE IS IN JEOPARDY: HOW DOCTORS DETECT AND TREAT THE MOST COMMON LIFE-THREATENING CONDITIONS

Createspace, United States, 2011. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.When Life Is in Jeopardy: How Doctors Detect and Treat the Most Common Life-Threatening Conditions, by physician and medical researcher Stephen Garrett Marcus, is a comprehensive, yet easy-to-read book about the life-threatening conditions and complications that are the most common causes of serious illness, injury and death in the United States, Canada, and Europe. When Life Is in Jeopardy tells the entire story of diseases, injuries and their complications, including initial symptoms, making the diagnosis, initial treatments, treatment to prevent or treat relapses, benefits and risks of treatments, the outlook for survival and recovery, experimental treatment, and, if necessary, treatment to relieve suffering if a cure or remission becomes unlikely or impossible. The book is divided into four sections: Life-Threatening Diseases explores the most common life-threatening diseases including the most common cancers, stroke, heart diseases, cirrhosis, pneumonia, influenza, and chronic obstructive pulmonary disease (COPD). Life-Threatening Injuries explains how emergency physicians and surgeons evaluate and treat chest, abdominal and head trauma. Life-Threatening Complications discusses the large number of dangerous complications that can occur as a direct result of a serious disease or injury or as a side effect of medical or surgical treatments. Clinical Trials gives information about how new treatments are tested by responsible medical researchers and how a person can identify and enroll in a clinical trial of an experimental treatment. The focus of this book is on the medical and surgical treatments of illnesses and injuries and their complications. Although it would be preferable, to prevent a disease or injury rather than treat it, preventive measures are usually beside the point once the disease or injury has struck. Prevention discussed in this book emphasizes prevention of...
