Brand New Book ***** Print on Demand *****.Excerpt from The Genitalia of the Group Tortricidae of the Lepidoptera of the British Islands: An Account of the Morphology of the Male Clasp ing Organs and the Corresponding Organs of the Female After gathering together a fair collection of the British butterflies and larger moths, I found, in company with many other collectors of the British Lepidoptera, that, to a certain extent, Rome was conquered, and fresh fields for study must be opened up. Often it is not until this point is reached that the attention is turned to the Micros, those marvellous little gems, of which many are so small that the keenest eye can hardly see to appreciate their beauty. Yet, with the perversity of human nature, it is not till the eye grows dim, that the average Lepidopterist begins his study of these fascinating objects. Possibly there is a reason for this otherwise unfortunate delay. The hand steadies, and becomes expert with practice, and the setting of a Micro, which would daunt a beginner, becomes easy to the experienced; hence the readiness in later life to attempt the more difficult. Thus after years spent in the preparation of the genitalia of the larger species, I decided to complete my collection of slides of the British Lepidoptera, and I now present the third volume of the series, which deals with the Tortricidae. I have in this volume been fortunate in securing the co-operation of the Rev. J. W. Metcalfe, who, in his great love of the Science, and at no little sacrifice, has made the drawings as fast as I could obtain the specimens, and prepare the slides, and I take this opportunity of offering...
